Directions for Use:

1. Separate each page into 3 traps.
2. Peel protective cover from blank side of spider trap
3. Fold along scored lines into Triangle or Square
4. Decide on Location for Spider Trap
5. Peel Protective strip off bottom of Spider Trap to Hold trap in place
6. Spider Traps can catch ANY insect that wanders across its surface
7. Insects caught will become additional spider bait
8. Integrated bait is non-toxic, non-poison and pesticide free
But don't eat it,
It will stick to your nose!
(Vegetable oil will clean up the glue)
9. Place where spiders have been recently seen:
Bedposts, to prevent climbing
In Closets
Behind Toilet
In Basements
Next to garage door
Near entry doors
10. Bait will loose strength in 90 days
11. Spider Traps can be thrown in garbage (they have no pesticides)
12. Be careful handling a full trap, spiders may still bite, wear gloves.
