

## THANKS FOR USING WOOD OX!

Wood OX comes in 4 EZ-Pouches.  
Each pouch covers 500 sq ft.

The pouches are designed to be used individually,  
enabling you to clean at your own pace.

Clean your Fence or Deck in three easy steps:

1. Ready 2. Clean 3. Rinse.

Unfold for Directions

## 1. READY

### Choose an Ideal Day

- Temp over 65°
- No rain before applying
- Low or no wind

### Get the Gear

- Pressurized pump up sprayer
- 5 gallon mixing bucket
- Rubber gloves

### Mixing Wood OX

1. Put 2 1/2 gallons of HOT water into a 5 gallon bucket
2. Open 1 (one) OX EZ-Pouch, pour slowly into water
3. Mix until dissolved
4. Allow 10 minutes to activate
5. Fill 2 gallon pump up sprayer

## 2. CLEAN

### Application Strategy

- Work in 12' x 15' sections
- Soaking the wood is essential to penetrate the stain
- Thick Stains require two passes
- The longer the cleaner soaks, the better the clean

### Apply Wood OX Cleaner

1. Soak wood to the point where the cleaner is just about to run
2. Soak for at least 25 minutes. (This is when the cleaning happens, be patient)
3. Keep wood damp while waiting (If cleaner dries, mist with clean water to reactivate)
4. Wood OX Cleaner only works when WET

## 3. RINSE

### Rinsing shows the results!

Stains must be rinsed away,  
to reveal clean wood underneath!

### Rinse to reveal clean wood

1. Garden hose tight jet stream (a fan or wide spray may not have enough rinse intensity to remove stains)  
**or**  
Pressure washer fan spray tip (keep pressure under 200psi, if using a 3000psi rig, a spray 20in wide is **safe**)
2. Heavy stains will need to have the jet of water **within 6 inches** of the stain to dislodge the stain residue
3. On stubborn stains, wipe with a soft bristle brush (similar to brushes used at a Car Wash)
4. Rinse with a final flood of water

**Rinsing is essential!**  
**Until the stains are rinsed away,**  
**clean wood may remain hidden**

## HINTS / TIPS

- Heavy Stains, or very old wood may have shadows of stains caused by the wood having been covered by the stain for years.  
Apply an additional coat if this is the case
- Wood OX will not remove rust or mineral stains
- HOSE END SPRAYERS are NOT calibrated for our cleaner, only use our Hose End Pro-Applicator. Cleaner Today Pro-Applicator Mixing Instructions: Fill Container 1/2 full, Pour in 1 OX EZ pouch, Stir until dissolved, fill water to top, Wait 5 minutes, and Set DIAL to 'E'
- Wood OX is a homeowner product; For stubborn stains, upgrade to Fence QSE

## COMMON SENSE CAUTIONS

**It is a violation of Federal law  
to use this product in a manner inconsistent with its labeling.**

*Read and follow ALL safety information contained on this label and in the MSDS. Manufacturer's warranty is limited to purchase price. No other guarantee is given or implied. **User Assumes all risk.***

### CONTAINS

Wetting agents, sodium carbonate peroxyhydrate  
and proprietary surfactant blends.

### WARNINGS

If in Eyes: Irritant: Hold eye open and rinse with water for 15 minutes.  
If discomfort persists call a doctor for treatment advice.

If swallowed: If swallowed give large amounts of water followed by  
citrus juice or diluted vinegar. Call a doctor for treatment advice.
